👤 Professional Summary

Energetic and curious Computer and Communication Engineering student seeking a Software Developer Intern role. I enjoy building real-world applications, solving logical challenges, and contributing meaningfully to dynamic and impact-driven teams across domains.

📁 Projects

YapBack – AI-Powered YouTube Video Q&A System

Python, Streamlit, Gemini API, Endee Vector DB, Docker

- Developed a RAG-based AI application that allows users to ask questions and retrieve answers from YouTube video transcripts.
- Implemented semantic search using Gemini embeddings and vector similarity search with Endee database and HNSW indexing.
- Built an interactive Streamlit chat interface with timestamp-based citations and deep-links for accurate video navigation.

CrackItNow – AI-Powered Technical Interview Platform

React, Django, Gemini API, Tailwind CSS, Judge0, WebSockets

- Developed an AI-powered mock interview platform that generates technical interview questions and evaluates candidate responses using Gemini API.
- Integrated Monaco Editor and Judge0 API for real-time coding interviews with code execution and assessment features.
- Implemented JWT authentication, WebSocket-based communication, and text-to-speech functionality to create an interactive interview simulation experience.

🧠 Skills

Language

Java, Python, C, C++

Web

HTML, CSS

Database

MySQL

OS

Linux, Windows, MacOS

Concepts

OOPs, CRUD, DBMS, UI Design

Version Control

GitHub

Other Tools

VS Code

Certificates

Infosys Springboard
Artificial Intelligence

Infosys Springboard
Python Foundation

NPTEL
Programming in Java

Internships

Infosys - Artificial Intelligence Intern

Artificial Intelligence, Machine Learning

- Completed an internship focused on Artificial Intelligence concepts, applications, and AI-driven problem solving.
- Worked on **Eco Pack AI**, an AI-based project aimed at developing smart and sustainable packaging-related solutions.
- Gained hands-on experience in AI tools, model understanding, and real-world project implementation during the internship.

Publications

IEEE Conference - D. Y. Patil University, Pune, India, 2025

IEEE Conference - Vidyavardhaka College of Engineering, Mysuru, India, 2025

Lightweight Blockchain Framework for Secure and Privacy-Preserving IoT Systems

Interests

Travel photography

capturing street stories and landscapes

Reading

tech blogs

Volunteering

college tech events and peer mentoring

Sports

Enjoys playing volleyball and following cricket leagues

Education

VSB Engineering College

BE – CCE

CGPA: 8.15

2023 – present | Karur, India

Akshaya Academy School

12th Grade – CBSE

Score: 79%

2022 – 2023 | Oddanchatram, India
